Portfolio: <https://portfolio-qf8l.vercel.app>

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student (2026) with hands-on full-stack experience across Java, Spring Boot, Spring Data JPA/Hibernate, React JS, and MySQL. Built and deployed two end-to-end applications spanning REST architecture, normalized database design, and Redux-driven state management. Strong fundamentals in OOP, DSA, and DBMS; seeking a Java Developer role to ship production-ready code from day one.

TECHNICAL SKILLS

Languages: Java, JavaScript, C, SQL

Backend / Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, Maven

Frontend: React JS, Redux, React Router DOM, HTML5, CSS3, JavaScript (ES6)

Database: MySQL, JDBC

Tools & Practices: Git, GitHub, Postman, VS Code, Eclipse IDE, Agile/Scrum basics, Unit Testing

Core CS Concepts: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

PROJECTS

Health Insurance Management System | github.com/Raghu-Thirumalakonda | Java 17, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Thymeleaf, MySQL, Maven, Git

- Designed and built a full-stack web app with 3 role-based modules (Vendor, Doctor, Patient) across 15+ Thymeleaf views, following MVC architecture end to end.
- Implemented complete CRUD workflows using Spring Data JPA and Hibernate, backed by a normalized MySQL schema with 6+ related entities.
- Structured the codebase into clean service/repository/controller layers and version-controlled all development through Git using feature-branch workflows.

React Food Ordering Application | food-project-bay-five.vercel.app | React JS, Redux, React Router DOM, JavaScript, HTML5, CSS3, Git

- Built and deployed a responsive food ordering platform covering authentication, search, category filtering, cart management, and order tracking.
- Implemented centralized state management with Redux across cart, auth, and order-tracking flows, with client-side routing via React Router DOM for a single-page app experience.
- Persisted session and cart data using localStorage, ensuring state continuity across page reloads without a backend dependency.

EDUCATION

- B.Tech, Computer Science Engineering** — Audisankara Institute of Technology, Gudur, Nellore Dt, AP | 2026 | 7.5 CGPA
- Intermediate (MPC)** — Krishna Murthy Jr. College, Nellore, AP | 2022 | 7.0 CGPA
- SSC** — MJPAPBCWR School, Doravari Satram, Nellore Dt, AP | 2020 | 9.6 GPA

CERTIFICATIONS

- Java Full Stack Development Workshop — Certificate of Completion
- Python Full Stack Development Workshop — Certificate of Completion
- Problem Solving (Basic) & Python (Basic) — HackerRank Certified

WORKSHOPS & ADDITIONAL ACTIVITIES

- Employability Soft Skills Competency Workshop; SWOT Analysis & Community Service Project Seminar
- Active participant in college technical events, sports, and cultural activities
